

Apparently, we have more than a few artists in the family, and I would like to ask everyone that is gifted with art skills please send some pics of your work because I saw some and it's amazing! The first time I

remember seeing Barbs art was incredible and I must admit, I was a little jealous

because I have zero artistic talent. One of the other times was when Jas was in Florida visiting and wanted to drink from and eat a coconut from one of our palm trees. We got the biggest one we saw, and the eating and drinking didn't work out but somewhere along the process Jas decided to make a face out of half the coconut we just demolished getting to the milk and meat, and it's amazing and hanging on the wall in Pagosa Springs.

I should also note that we have some family that are talented musicians and singers, and of course we have some funny as hell people as well! Here is a couple of examples I have of some of our talented family members that have some profession quality art and I'm not just saying that because one

of the pics is me, thank you Sarah! The male artist in our family is Wayne and he was a magnificent hairdresser and made a long lustrous career of being the best! I suppose it already occurred to some of you that I'm stoned when I put this site together! MK
