

Gone but not forgotten are 3 cousins that had their lives end early and never got to experience the full beauty of life. I believe they should be honored somehow so they are never forgotten by our beautiful family, so if you can think of a way they should be memorialized please let me know and I'll make it happen. I remember Eli like it yesterday and he was such a smart kid with a sharp tongue and interesting sense of humor. I didn't know Julian very well at all but the few times I interacted with him I could tell he was going to do well in life because he was pretty damn smart. Jason only made it a little while because he was born with a hole in his little heart so we took him to the Winner hospital when he started having problems breathing and what did that f!@king doctor steel do, he said sorry we can't help him here so take him to Yankton! This asshole let my son die and if he was alive today there would be complete f!@king hell to pay by me!!! Larry W and Barb drove us to Yankton, but it was too late but thank you Larry and Barb for your help and support during the worst days of my life, even worse than stage 4 cancer.

Eli Kewley born 1971 passed 1979.

Jason Kewley born 1974 passed June 15th, 1974.

Julian Kewley born 1987 passed August 15th, 2013.
